**A SURVIVAL GUIDE FOR BRONZE SCULPTORS** by Gabe Gabel is IN PRINT!!!!

We are now able to accept your order and we are ready to ship your book to you. I think it looks wonderful and I am delighted with it. It contains 280 pages with over 150 black and w white illustrations of my methods, the processes, and my bronzes.

This book is a wonderful resource for those who are interested in bronze sculpture. It is written by a working professional artist who has spent over thirty years as a successful sculptor. The book not only covers sculpting methods for lost wax casting, it explains in detail the foundry processes involved and it also gives the artist a thorough overview of the actual business of marketing his or her artwork as Gabe has actually experienced it. This is a book written with humor, understanding, and encouragement.

Sculpture collectors will find the book fascinating, too. If they own a Gabe Gabel bronze, they will probably find it in here. The complete explanation of the foundry process will help them appreciate their collection even more, and the insight into the world of the artist will be enlightening, too.
